

Compactor de Drum

X15 • Un compactor electric ca cele mari care asfalteaza drumurile!

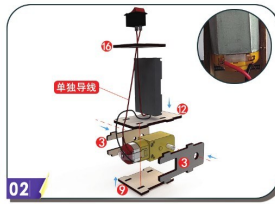

De ce ai nevoie?

- | | | |
|-------------------|------------------|----------------------|
| • Placi lem corp | • Motor electric | • Cutie baterii 2xAA |
| • Rola mare fata | • Roti spate | • Suruburi/stifturi |
| • Fire rosu/negru | • Surubelnita | • Comutator |
| • Carcasa | | |

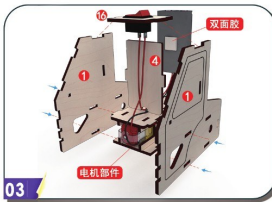

Pasii de asamblare

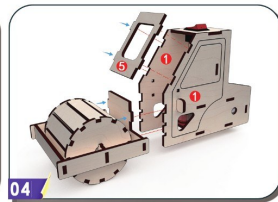

01 ● 如左图, 8号板卡在11号板缺口中, 胶水固定。● 如右图, 将两块18号板交叉穿在11号板中。● 将14、18、6号板接头位置涂上胶水安装在7、10号板上。

02 ● 电池盒红线穿过16号板方孔中, 连接开关触点。● 将一根单导线连接开关另外一个触点, 另一头穿过16号板连接电机上面的铜片。● 电池盒黑色导线连接电机的下面的铜片。● 3号板卡在电机两头, 9、12号板安装在3号板两头。

03 ● 将开关按压在16号板方孔中。● 两块15号板把4号板和电机部件安装在中间。(将头涂上胶水)。● 然后电池盒用双面胶贴在4号板背面。

04 ● 将5号板接头上胶水安装在1号板上。● 把前面安装好的滚刷部件安装在1号板上, 用胶水固定。

05 ● 将齿轮和2号板之间涂上胶水, 穿上车轴。● 把车轮部件安装在电机轴的圆孔中。● 两块15号板涂上胶水安装在1号板上。压路机制作完成! 注意: 齿轮和2号板之间尽量多涂点胶水, 防止打滑。等胶水凝固即可。

1 Corpul principal

Prinde placa 15 de placa 11. Uneste placa 1 cu placa 6. Prinde placa 3 pe corp.

2 Carcasa bateriei

Pune placa 12 pe corpul 3. ROSU cu ROSU, NEGRU cu NEGRU. Fixeaza piesa 5.

3 Carcasa exterioara

Prinde carcasa (placa 9) cu suruburi. Aadauga capacul superior. Fixeaza bine.

4 Motorul electric

Pune motorul in interiorul carcasei. Asigura conexiunile spre rola frontala.

5 Rola si rotile

Fixeaza rola mare din fata pana face 'click'. Monteaza rotile din spate.

6 Pune bateriile si porneste!

Pune 2 baterii AA. Apasa comutatorul si rola mare tasteaza totul!

ATENTIE!

- Atentie la degete cand montezi rola mare!
- Daca merge inapoi, inverseaza firele motorului.

Stiai ca...?

- Compactoarele reale apasa asfaltul sa fie neted si rezistent.
- Rola mare se numeste 'cilindru compresor' la masinile reale!
